Dear Sir or Madam:

We, *Dearborn Group Technology*, hereby declare that the product: *Vehicle Interface*, model(s): *DPA 5 BT*, uses the same PCB as the *FCC ID: QOQWT11*, *IC: 5123A-BGTWT11E*. The Block Diagram and Schematic drawings use the same modules as listed in *FCC ID: XOVI3EAXOV*, *IC: 8377A-DGDPA5*.

A description of the differences between the tested model and those that are declared similar are as follows:

The DPA5 BT is the Equipment under Test (EUT). The DPA5 BT has a bluetooth module installed internally. The bluetooth module is the same as the FCC ID: QOQWT11. The only change from the QOQWT11 is there is a new custom antenna. The antenna is attached to the PCB via a coaxial cable. The antenna is embedded into a custom endplate, in order to avoid using an antenna that protrudes from the RF device.

Please contact me should there be need for any additional clarification or information.

Best Regards,

Marc A. Kiefer, Test Engineer
